

The price of games has increased over the years. This means a lot of people now have to download and install games from the internet. The problem is that we have other activities to carry out and this gets in the way of downloading the game. We know that its a pain, but piracy is also a problem. Developers deserve the money they get for creating games, but we can only afford to buy them if we buy them legally. If we buy games through torrents, we are sharing money that could be going to the developers. We are here to stop this. We try to hunt down the biggest games to be uploaded on our website. But we cant always ensure all of the games are legal to download and play. If you get any errors or warnings while trying to download games, do not panic. We have other ways of getting around anti-virus and warnings. Here at rockapp.io we make it easy to download any game. We have an amazing collection of games that you can freely download through our website. All we ask from you is that you make an account and add us as a friend. This way when you download games, you can add them to your account and then upload the games that you find or share them with us. Thats all we want. We dont need to be your friends in order to be good enough to download games. So please keep on being a rockapp.io member! We suggest you purchase game discs for games that you just cant wait to play. Downloading games from torrents can be pretty costly for each game. All of us here at Rockapp.io are gamers and enjoy sharing games with our friends and we enjoy sharing games with you. The more games we add to our database, the more games we can offer our friends and the more games you can get! We work hard to make the best website and the best free download website on the internet. The only thing we ask of you is to follow the guidelines in the page above.
