
Hacking The IKEA TRADFRI LED Power Supply

flashing light indicates that the maximum power of the LED driver has been exceeded. You can connect up to 10 TRADFRI LED drivers in one installation. This allows you to reduce the number of drivers for a single driver you install. Please note that this may have a negative impact on performance. The TRADFRI driver can be connected to up to 10 TRADFRI LED drivers. The figure below shows the TRADFRI driver connected to a dual LED driver (trigger driver): Please note that the TRADFRI driver can be connected to dual LED drivers.
